RESPONSE TO RESTRICTION REQUIREMENT

Responsive to the action mailed October 13, 2005, in reply to the restriction requirement Applicant elects the claims of Group I. This election is made with traverse. In reply to the election requirement Applicant elects Group A drawn to Figure 1, and submits that claims 1-25 are readable thereon, and thus by definition all claims in Group I are readable thereon. This election is made with traverse.

In the action, the Examiner has restricted the claims into three groups based on MPEP § 806.05(c) Combination and Subcombination. The Examiner has further identified each of the 5 Figures in this application as different species.

Applicant thanks the Examiner for the telephonic interview conducted on November 10, 2005 during which the restriction and election requirements were discussed. Applicant's representative Gregory A. Walters raised the same issues outlined herein but was told these issues would not be considered until a written response was filed. Thus, no agreement was reached.
